

## YORK COUNTY JUDICIAL CENTER

**Market Sector:** Government  
**Project:** Judicial Center  
**Location:** York, PA  
**Owner:** York County Commissioners  
**CM/GC:** Kinsley Construction  
**Contract Type:** Subcontract  
**Tonnage:** 1,500

This eight-story building, constructed in a tight urban setting, includes a penthouse and a three-story arcaded base. A full basement level accommodates parking and secure holding areas. There are 12 courtrooms, seven hearing rooms and an unfinished shell floor for six future courtrooms.

Kinsley was responsible for erecting approximately 1,500 tons of structural steel. A tower crane was also used to erect the structure. The tower crane was 171 feet of neck height and 230 feet of jib.

A unique challenge was the tight laydown area for unloading the steel.

This project received an Award of Excellence.
